

Clean Air & Clean Energy

A BOLD APPROACH TO INVESTING IN CLEAN ENERGY AND HEALTHY COMMUNITIES

OUTCOMES

20 MILLION TONS
of pollution reduced

OVER 40K JOBS
created

IMPROVED PUBLIC HEALTH AND SAFETY

INVESTMENTS IN SOLUTIONS

This fund will accelerate Washington State's transition to clean energy, build climate preparedness through clean water and healthy forests and reduce the impacts of climate change on our communities.

OVER \$700M TO DRIVE THE CLEAN ENERGY TRANSITION

Transportation-related reductions in pollution

Energy efficiency projects

Helping farms and forests sequester carbon

Incentives for clean energy projects such as wind and solar

OVER \$250M FOR CLIMATE PREPAREDNESS

Improved health of our forests and reduced likelihood of forest fires

Investments in critical water conservation and clean water projects

OVER \$50M TO PROTECT COMMUNITIES FROM CLIMATE IMPACTS

Investments to:

- Fire preparedness
- Public safety
- Education
- Public participation

Investments prioritized to bring concrete benefits to the most highly impacted communities and workers, ensuring a just transition, investments in low income urban and rural communities, and tribal sovereignty.

CARBON POLLUTION EXPLAINED

CARBON FEE
at \$15/metric ton on carbon emissions starting January 1, 2020

GOAL ORIENTED:
\$2 annual fee increase until greenhouse gas reduction goals are met

TARGETED EXEMPTIONS
to meet specific needs of Washington's key sectors

NATIONAL LEADERSHIP

Washington will be the first state in the nation to pass a price on carbon pollution on the ballot.
